THE BUYERS' GUIDE.

The melancholy days have come, The saddest of the year to the merchant.

IT IS NOW THAT

THE FARMER!

The producer of the Nation's wealth, with whom all things begin and end, is his very busiest—too much so to buy merchandise. With the merchant it is otherwise—very much otherwise. Arising in the morning he unlocks his store, sweeps and dusts and painfully awaits 9 o'clock, at which hour the Banks send out messengers whose duty it is to present notices that certain bills are due and must be paid at once; the remainder of the day he spends in making arrangements to pay these bills.

YOU WILL SHORTLY HAVE TO BUY A WHEAT DRILL! Not more than six weeks at the farthest. I will give you \$5 if you will give me your order NOW instead of a few weeks later. You won't have to pay for it one moment sooner. Just leave your order and then haul it out when you get ready.

## AMERICAN CALLED

Detachment of the Twenty-Third Infantry Has a Fight With Bandits in Cebu.

ENEMY'S LOSS 5 KILLED, 7 PRISONERS.

Col. Bell, in Command of the Thirty-Sixth Infantry, Has Enlisted About 500 Men.

May Raise an Additional Regiment in Manila, Enlistment Volunteers—The Thirty-Sixth Infantry—Are Leaving for Home.

WASHINGTON, July 27.—Three cable messages from Gen. Otis were received at the war department Wednesday.

One reports another engagement with bandits in Cebu, in which the American force was victorious.

It bears date of Wednesday and is as follows:

"Following from Cebu (May): Bandits in Cebu mountains robbing and impressing peace coast towns. On Monday Lieut. Moore, with detachment 23d Infantry, while scouting in mountain, fired upon from strongly fortified position; one private killed, enemy's loss five bandits killed, seven captured."

Another refers to the organization of the volunteer regiments in the Philippines as follows:

"Bell has enlisted about five hundred men. Wallace, still south, has about four hundred. Lockett, now enlisting, has about four hundred applications, which are coming in rapidly. Might raise here an additional regiment exclusively of Filipinos."

Col. Bell, referred to in the dispatch, is in command of the 36th Infantry and Col. Wallace of the 37th. Col. Lockett is in command of the cavalry regiment, which is to be raised in the Philippines.

The third dispatch says:

"Storm has abated. Sherman sailed, leaves Wednesday with all troops in California. Grant, being cooled, leaves in about four days with troops. North Dakota, Wyoming and Idaho. Minnesota's preparing to leave on Sheridan; same as transport can be unloaded on coast. Other volunteer organizations leave soon as transports are available."

Gen. Otis has been elected to send the volunteers home as rapidly as possible, it being the desire of the president to have no delay in the matter.

## A REVOLVING MURDER.

Colored Woman Crushes Her Child's Head and Throws the Body to Stone Slugs—She Dies.

WESTCHESTER, Pa., July 27.—A most revolting murder came to light Wednesday. It is claimed that Mrs. Frances Brown, colored, of Westchester, crushed her infant child's head with an ax and then threw the body to stone slugs which devoured it. The woman is 30 years old. She has died surrounded and the premises searched, but there was no clue by which the guilty one could be picked out, so they bent their efforts in assisting the blood-stained motorman and conductor to trace the end of the windows of which had been broken by stones.

Gen. Axline, in command of the troops here, in order to personally view the situation, took a rail Wednesday on the street car, and he was in civilian dress and the car was stoned at intervals all along the route. A rock came near hitting him. The general took other trips through the troubled district but declined to give his view of the situation.

## KLONDIKE GOLD DIGGINGS.

Ten Million Dollars to Gold Will Cover the Product for the Past Year—Many Diggings Persons in Dawson.

WASHINGTON, July 27.—Information from the Klondike up to June 30 has reached the state department from United States Consul McKee at Dawson. The consular says that \$10,000,000 instead of \$20,000,000 in gold will cover the gold product for the past 12 months, and adds that reports from Alaska indicate that more gold will be found there than ever will come out of the Klondike.

Typhoid fever has broken out six weeks earlier than last year, and there are several hundred persons in Dawson without means to get out. The gambling fraternity is reaping a rich harvest.

## WILL BE CANCELED.

A Step Taken That May End the Big Street Car Strike in Cleveland, O.

SPECIAL MEETING OF CITY COUNCIL.

Ways and Means of Putting an End to the Distressing Situation Will Be Discussed.

It is hoped to Conciliate the Street Car Company and its Employees—The Board of Directors of the City of Cleveland Has Called to Brooklyn.

CLEVELAND, O., July 27.—A step, in which there was much hope of conciliating the street car company and its striking employees, was taken Wednesday night by the committee of the council, which succeeded in patching up an agreement over the difficulties which caused the first strike over a month ago.

The committee Wednesday night made a request for a special meeting of the council to meet Thursday night to discuss ways and means of putting an end to the present distressing situation.

It is regarded as probable that the old committee will be reappointed and at once set to work. They succeeded in the first instance before the board of arbitration had failed, and a compromise whereby every fifth crew was to be non-union was patched up. The union men on their part agreed to treat the non-unionists working with them with every consideration shown members of the brotherhood. Over allegations made by both sides that the other had violated this agreement, which was made a week ago Sunday, grew. The strikers say that the company did not put enough union men at work and the company claims that their non-union employees were much harassed by the men of the association. The work of the committee which is expected to result from the meeting of the councilmen Thursday will be primarily to discover if the agreement has been violated, and if so by whom.

The action of the old committee in seeking to repeat their former successes with the approval of Gen. Axline, members of the board of arbitration, and the mayor and his advisers, as well as citizens generally, it is said.

The storm center of the street railway strike has, according to the authorities, settled in Brooklyn, a suburb connected with Cleveland by a long, high bridge. At noon 150 employees of the Iron Steel Range Co. blockaded a car on the bridge and dragged the motorman and conductor from their posts, inflicting with their fists and other weapons injuries more painful than serious.

Soldiers on guard at the barn about half a mile away, hurried to the scene, but the rioters had taken refuge in the factory which stands under the approach to the bridge. The factory was surrounded and the premises searched, but there was no clue by which the guilty one could be picked out, so they bent their efforts in assisting the blood-stained motorman and conductor to trace the end of the windows of which had been broken by stones.

Gen. Axline, in command of the troops here, in order to personally view the situation, took a rail Wednesday on the street car, and he was in civilian dress and the car was stoned at intervals all along the route. A rock came near hitting him. The general took other trips through the troubled district but declined to give his view of the situation.

## THE SHIP CANAL.

Engineer Rafter, in Charge of the Survey, Completes His Work and Makes a Report.

FROM THE GREAT LAKES TO THE OCEAN.

Project Is to Cut a Canal 30 Feet Deep and 340 Feet Wide Around Niagara Falls.

Will Follow Oswego River to Onondaga Lake, Thence Through the Mohawk Valley to the Hudson River—Another Survey by Rafter.

ALBANY, N. Y., July 27.—Engineer George W. Rafter, in charge of the survey for the proposed ship canal from the great lakes to the Atlantic ocean, has completed his preliminary work and drawn his report. The project is to cut a canal 30 feet deep and 340 feet wide, which is three and one-half times the depth and five times the width of the Erie canal from Lake Erie to Lake Ontario around Niagara Falls, leaving Lake Ontario at Oswego, through the Oswego river to Onondaga lake, thence through the Mohawk valley to the Hudson river. A single lock will be 1,000 feet long, with walls over 50 feet high. The greatest problem has been to find storage for water to feed this great canal on its various levels, and yet not affect the water supply of manufacturing concerns now using various rivers.

Mr. Rafter plans a great dam at Canastota, on the Black River, in Jefferson county, making a lake covering 50 square miles of land, to feed the canal.

From this reservoir Mr. Rafter has located a canal nine miles long, as wide as the Erie, to the proposed ship canal just west of Rome, and on the way down has planned a secondary reservoir in the Salina river. The commission's work also includes a similar survey for a canal of the same character, leaving the St. Lawrence river at the head of the Coteau rapids and thence into and through Lake Champlain.

## THE PORTO RICO RAILROAD.

One Hundred and Thirty Miles of the Road Has Been Constructed—Fifty-Five Miles Yet to Be Built.

WASHINGTON, July 27.—Edward Lauterbach and Charles C. Heaman, lawyers of New York, were at the department of justice Wednesday and had a conference with Attorney General Griggs in regard to the status of the Porto Rico railroad. This road was refused to be sold to the United States by the Spanish government, which guaranteed a dividend of eight per cent. on the cost of the road on a basis of \$25,000 a mile for construction. One hundred and thirty miles of the road have been constructed, leaving 55 miles yet to be built.

The attorney general expressed the opinion that the secretary of war, as chief of the military government, was authorized to refuse to guarantee the dividend assumed by Spain, or to take any action which could in any way bind this government beyond the limit of military occupation. The conclusion was reached that congress alone had authority to act in the premises.

## PRESIDENT ASSASSINATED.

Gen. Ureux Killed by Ramon Caceres—The Assassin Escapes.

PORT DE FRANCE, Island of Martinique, July 27.—Gen. Ureux, lieutenant president of the Dominican republic, was assassinated at noon, Sunday, at 10 o'clock Wednesday afternoon.

The name of the murderer is Ramon Caceres. He succeeded in making his escape, but an energetic pursuit was at once begun and it is probable that he will soon be captured.

Vice President Gen. Wencesio Figueroa immediately upon the announcement of the president's death, assumed the direction of affairs.

At present calmness prevails everywhere in the republic. The remains of President Heureux will probably be taken to San Domingo for the funeral services.

## For His Fifth Murder.

LOS ANGELES, Cal., July 27.—Sheriff W. P. Pierce, of Kirkwood, K. county, Oka., arrived here to take Clyde Mattox, who is to stand trial for murder. Pierce says that the crime for which Mattox has been held to answer now is his fifth murder. He was pardoned once by President Cleveland and once by President McKinley. Mattox will be shackled and no chance given him to escape.

## Mississippi Negro Lynched.

JACKSON, Miss., July 27.—Stanley Hayes, a Negro, charged with rape, was lynched near Brandon Tuesday night.

## RIOTING AT EVANSVILLE.

The Colored Miners and the Colored Non-Union Miners Carrying Winchester and Transits Is Expected.

EVANSVILLE, Ind., July 27.—Rioting prevailed at two of the local mines Wednesday. As the colored non-union miners employed at the First avenue mine came from work they were met by a crowd of about 50 boys who carried tin horns and tin cans. They followed the miners for about a block and kept up a continual yell. Finally the Negroes turned on the boys and pulled the tin horns and tin cans. They followed into the crowd but no one was hurt. The boys jumped behind trees and telephone poles for protection.

Soon there were several hundred people in the scene, and many of them carried Winchester. The police dispersed the crowds with difficulty. Nearly 1,000 people gathered at the John Ingles mine, and when the Negro miners stopped work, they were surrounded by strikers and sympathizers, both union and non-union men carried arms, and it is impossible for the officers to disarm them. The wife of one of the strikers made an attack on John Ingles, the owner of the mine, and struck him over the head with an empty powder can.

The non-union miners rushed through the lines and were brought to the city on a tugboat. The men paraded the streets with their arms and the police made no effort to stop them. Akin issued a proclamation Wednesday night forbidding the miners from parading the streets. The situation is extremely grave and the officers find themselves unable to control the Negro miners at the First avenue mine as they will take Winchester with them as they go to work Thursday morning.

## TROUBLE IN AN IOWA PRISON.

Convicts Revolt Against the Reduction of the Tobacco Ration—The Board Refuses to Reconsider the Order.

DES MOINES, Ia., July 27.—The state board of control recently issued an order that the weekly tobacco ration of convicts in the two penitentiaries should be reduced from four to two ounces, and butter should be added to the ration. The order does not please the convicts. When it was first received, and about 300 men in the Anamosa penitentiary refused to work. The men refused to work and were taken to their cells. Monday only 15 of the regular force of 150 went to their work in the quarries. Most of the convicts refused to work. Wednesday Warden Hunter came from Anamosa to confer with the board. He is not in sympathy with the tobacco order and believes it will make serious trouble unless reversed. The board, however, refuses to withdraw the order, and on the other hand, proposes gradually to reduce the tobacco ration till it is no longer used.
